

# HONG KONG COLLEGE OF PHYSICIANS

Nov 2012

## REHABILITATION

Hospital	Core Rehabilitation Training (24 months)	Total Duration (month) in Core Training	Conditions of Accreditation	Overall comments/Specific improvements required
FYKH	<ul style="list-style-type: none"> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> </ul>	9		
HHH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 6 months Pulmonary Rehabilitation</li> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> <li>◆ 3 months Musculoskeletal and Spinal Rehabilitation</li> </ul>	21	Require rehabilitation specialist supervision for module 3.2 (pulmonary rehabilitation).	
KH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 3 months Cardiac Rehabilitation</li> <li>◆ 3 months Pulmonary Rehabilitation</li> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> <li>◆ 6 months Musculoskeletal and Spinal Rehabilitation + 3 months elective</li> </ul>	24	Require rehabilitation specialist supervision for module 3.2 (cardiac rehabilitation and pulmonary rehabilitation).	<ul style="list-style-type: none"> <li>◆ The cardiac rehabilitation service is in QEH.</li> <li>◆ The pulmonary rehabilitation service is in Respiratory Medicine Department of KH.</li> </ul>
LK/PMH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 6 months Cardiac Rehabilitation</li> <li>◆ 3 months Pulmonary Rehabilitation</li> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> </ul>	18	<ul style="list-style-type: none"> <li>◆ Require rehabilitation specialist supervision for module 3.2 (cardiac rehabilitation and pulmonary rehabilitation).</li> </ul>	Need to promote recruitment of rehabilitation trainees.
MMRC	<ul style="list-style-type: none"> <li>◆ 3 months Neurological Rehabilitation</li> <li>◆ 3 months Musculoskeletal and Spinal Rehabilitation</li> </ul>	6		MMRC has a strong multidisciplinary rehab team. The case volume is small, yet the quality is high. There is also a good mix of spinal cases in musculoskeletal rehabilitation.
RH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 3 months Cardiac Rehabilitation</li> <li>◆ 3 months Pulmonary Rehabilitation</li> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> <li>◆ 3 months Musculoskeletal and Spinal Rehabilitation</li> </ul>	21	<ul style="list-style-type: none"> <li>◆ Additional 3 month training in other centre is required for module 3.4 (musculoskeletal).</li> <li>◆ Require rehabilitation specialist supervision for module 3.2 (cardiac rehabilitation and pulmonary rehabilitation).</li> </ul>	Good preparation for the accreditation process. Service well structured. Clear goal setting with critical pathway.

Hospital	Core Rehabilitation Training (24 months)	Total Duration (month) in Core Training	Conditions of Accreditation	Overall comments/Specific improvements required
TMH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 6 months Cardiac Rehabilitation + 3 months elective</li> <li>◆ 6 months Pulmonary Rehabilitation + 3 months elective</li> <li>◆ 6 months Geriatric Rehabilitation</li> <li>◆ 6 months Musculoskeletal and Spinal Rehabilitation</li> </ul>	24		The rehab service is housed in the rehab block. There is tailored made exercise area in each floor, conducive to quality rehab specialist led service matching client needs.
TPH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 3 months Cardiac Rehabilitation</li> <li>◆ 6 months Pulmonary Rehabilitation + 3 months elective</li> <li>◆ 3 months Geriatric Rehabilitation</li> <li>◆ 3 months Musculoskeletal and Spinal Rehabilitation</li> </ul>	21	<ul style="list-style-type: none"> <li>◆ Additional 3 month training in other centre is required for module 3.4 (musculoskeletal).</li> <li>◆ The CDRC of AHNH is accredited 3 months in cardiac or pulmonary rehabilitation.</li> </ul>	<ul style="list-style-type: none"> <li>◆ The Comprehensive Day Rehabilitation Centre (CDRC) plays important role in the ambulatory rehab process.</li> <li>◆ There is intention to develop cancer rehab with Bradbury. For future accreditation upon realization.</li> <li>◆ Advisable to expand the pool of rehab trainer and trainee for the heavy rehabilitation activities.</li> </ul>
TWEH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 6 months Cardiac Rehabilitation + 3 months elective</li> <li>◆ 6 months Pulmonary Rehabilitation + 3 months elective</li> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> <li>◆ 3 months Musculoskeletal and Spinal Rehabilitation</li> </ul>	21	Additional 3 month training in other centre is required for module 3.4 (musculoskeletal).	Some service under musculoskeletal rehabilitation is under orthopaedic care.
TWH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 6 months Cardiac Rehabilitation</li> <li>◆ 3 months Geriatric Rehabilitation</li> <li>◆ 3 months Musculoskeletal and Spinal Rehabilitation</li> </ul>	21	<ul style="list-style-type: none"> <li>◆ Trainee needs exposure in pulmonary rehabilitation through attachment.</li> </ul>	<ul style="list-style-type: none"> <li>◆ The in-patient service of geriatric rehabilitation is mainly in FYK Hospital.</li> </ul>

Hospital	Core Rehabilitation Training (24 months)	Total Duration (month) in Core Training	Conditions of Accreditation	Overall comments/Specific improvements required
UCH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 3 months Cardiac Rehabilitation</li> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> <li>◆ 3 months Cancer Rehabilitation as module 3.5 elective</li> </ul>	18	<ul style="list-style-type: none"> <li>◆ Require rehabilitation specialist supervision for module 3.2 (cardiac rehabilitation).</li> <li>◆ Trainee needs exposure in pulmonary rehabilitation through attachment.</li> </ul>	Will have 200 more rehab beds after rebuild. Need to expand rehab specialist and trainee pool.
WTSH	<ul style="list-style-type: none"> <li>◆ 6 months Neurological Rehabilitation + 3 months elective</li> <li>◆ 6 months Pulmonary Rehabilitation + 3 months elective</li> <li>◆ 6 months Geriatric Rehabilitation + 3 months elective</li> <li>◆ 6 months Musculoskeletal and Spinal Rehabilitation + 3 months elective</li> <li>◆ 3 months Cancer Rehabilitation as module 3.5 elective</li> </ul>	24	Trainee needs exposure in cardiac rehabilitation through attachment.	<ul style="list-style-type: none"> <li>◆ The rehab service is well structured in designated wards.</li> <li>◆ There is no cardiac rehabilitation service, a service gap in training spectrum.</li> </ul>
